

WHERE DID MY PAGE GO?

I created a page called Resources, and it used to be in my Navigation, but it's not there anymore. It shows up when I look at the File Browser...but not when I'm on my page. How do I get it back?

Add a new top-level page or link like you would if you were creating a new page. Instead of creating a new page, use the drop down menu to choose “Link to a page in [your directory]”

All your existing files will be brought up for you to choose from—including your missing page.

Click your file in the list to select it, then click the “Link to this page” button.

Add a top-level page or link

▶ Your Content <small>View page</small>	Rename	Hide	Remove	Add sub-link ↕
How To Guides <small>View page</small>	Rename	Hide	Remove	Add sub-link ↕
Upcoming Trainings <small>View page</small>	Rename	Hide	Remove	Add sub-link ↕
▶ Helpful Visuals <small>View page</small>	Rename	Hide	Remove	Add sub-link ↕
Related Links	Rename	Hide	Remove	Add sub-link ↕
College Relations and Marketing <small>View page</small>	Rename	Hide	Remove	Add sub-link ↕
Resources <small>View page</small>	Rename	Hide	Remove	Add sub-link ↕

By default, your page will appear at the bottom. Use the crosshair on the far right to drag it where you want it in your menu. Make sure you click “Save These Changes.” Voilà—it’s back in your nav!
