Visitors limited to essential academic and operational needs; monitored by approval process	No Visitors – essential vendors only for safety issues; monitored by approval process

***= more detailed information about how these areas will function under different alert levels and at different times during the semester are outlined on the second page in the Academic Operations Access Chart below:**

NOTES:

- For ALL alert levels, the **campus mask and social distancing policies are in place**. The mask policy mandates the proper use of a mask at all times unless eating or drinking and social distancing requires at least 6 feet between people at all times.
- These are guidelines only and individual circumstances may require adjustments to operations that may deviate from the overall campus operational level. For instance, the campus may be in yellow but one positive case in an academic building may require that that building be shut down for cleaning while other academic buildings remain open.
- The Alert Level Team will ultimately determine the operating level of the campus as well as exceptions to particular facilities based on all available data.

Washington College Academic Operations for Spring 2021 Semester
